

Seed Licensing Made Easy

AgCelerate is the most effective and secure way to maintain compliance for grower seed licensing. Growers can register for free, then start signing seed agreements for multiple manufacturers with only a few clicks of the mouse!

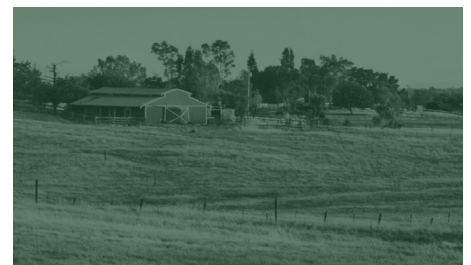

.....

As a supplier, you can track seed licenses for your growers across most manufacturers.

Registering as a supplier is easy and free. If anyone at your location already uses AgCelerate, they can add you as a user. If your location isn't a current AgCelerate supplier, simply visit AgCelerate.com, and use the "Contact Us" form to request an invite code and get started!

Benefits of having your growers sign agreements electronically:

- AgCelerate fills the agreements automatically: no more re-signing rejected forms!
- Eliminate postage cost and mailing time. Growers get licenses instantly!†
- Find licenses faster, with all your growers and licenses together at a single source.
- Gain access to compliance metrics and other helpful grower reporting.
- Completely free to use for suppliers and growers!*

†Not all trait providers provide instant license numbers; some providers may take up to 72 hours.

*All the baseline AgCelerate functionality is free for suppliers. We also offer a premium API integration for your POS systems to help you save even more time.
